“Creating BUSINESS sense out of BEE”

The Tourism Scorecard

The Tourism codes were gazetted under section 9 (1) of the B-BBEE Act by the minister of trade and industry (Mandisi Mphahlele) on the 22nd of May 2009. It is now regarded as a code of good practice.

The scorecard is very similar to the dti's codes but there are staggered targets for 2012 and 2017. Turnover thresholds for entities are different to those of the generic codes, with EMEs turning over less than R2.5million and QSEs falling between R2.5m and R35m. An allowance has also been made for equity equivalents. There is no mention of specialised entities even though the charter states on page 9 that *“this charter also applies to all organs of state and public entities, organised labour and communities involved with or interested in the tourism sector.”*

It is important to note paragraph 6.3 which says *“The final draft is based on the definitions, principles and methodologies of transformation outlined in the BBBEE Act of 2003 and codes of good practice. Where there is any conflict the codes of good practice take precedence.”*

- **Exempt Micro Enterprises (EMEs)** – enterprises whose annual turnover falls below R2.5 million per year. These enterprises are exempt from any form of B-BBEE and are automatically level 4 contributors – i.e. you can recognise R1 for every R1 spent with them.
- **Qualifying Small Enterprises (QSEs)** – enterprises whose annual turnover falls between R2.5 million and R35 million.
- **ARFG** - adjusted recognition for gender

Applicability

The Tourism Sector Codes apply to all privately owned enterprises within the Tourism Sector, and to all parts of the value chain in that sector, inter alia:
