**“Creating BUSINESS sense out of BEE”**

Please note that XYZ is an exempt micro enterprise (EME) as defined by Code 1000 - published by the Department of Trade Industry (dti) in December 2005. An EME is defined as an “enterprise that does not qualify to register for VAT (currently set at R300 000 per year)”. EMEs are exempt from any form of BEE and automatically qualify as a **Level 4 BEE contributor**, which entitles the purchasing company to claim R1 for every R1 spent.

I, the undersigned, certify that the information contained in this document is accurate and correct. I am fully responsible for any misrepresentation in this document and am aware of the repercussions that may arise as a result of such a misrepresentation.
